

Mastodon Township

A “Thrasher” Find

Mastodon Township has discovered an old thrasher on a farm.

The thrasher is unique because it has a lot of signatures of people who had used this piece of equipment. There are signatures with dates starting in 1902 with the latest being in 1955.

Mastodon Township would like to preserve this thrasher in a public area for all to see.

We may have to do fundraisers to raise the money to be able to do this project justice.

We are having a Recreation Committee meeting, Tuesday November 26th at 4:00, to begin discussing plans to complete this project.

If you are interested in helping us preserve this treasure, please feel free to join the group tomorrow.
