

The Mastodon Township Fire Chief is asking for our residents' help. He and his crew have experienced problems locating properties when emergency services are required. It would be a great help if every resident would have a visible, reflective fire number at the head of their driveway. The fire numbers need to be purchased from the Iron County Construction Code Office. If you do not currently have a fire number, the cost is \$60. If you are replacing your fire number, the cost is \$12. The number can be ordered on line as follows:

1. Go to [ironmi.org](http://ironmi.org)
2. Departments tab
3. Fifth selection down is Construction Code
4. Scroll to bottom/select "building inspections" on the far left
5. Third selection from the bottom is "house number applications"
6. You will need your property/parcel number (from your tax bill)

Or by calling Nick at the Construction Code office at (906) 875-3102 between the hours of 8 am and noon. Thank you very much for your cooperation.
